

Font Size in Windows 7

A number of members contacted Unite regarding the font size following the recent conversion from Windows 7. AQUA and UAPs seemed to be of particular concern but other Applications were also causing some issues.

We are pleased that having raised this with the UKIO H&S manager a short term workaround is available for any individuals who are having difficulties and the business are looking for a permanent long-term solution for all users.

Discussions continue and Unite (and the Employee Forum) are fully engaged in the process.

If members are experiencing any problems viewing applications following the conversion to Windows 7 please contact the IT Help Desk who will be able to help you.

Risk & Finance Transformation

Unite have been in discussions with the business relating to both the Risk and Finance Transformation programmes.

We provided feedback to the business on the recent G4 announcement in Risk and our comments have been taken on board.

Both areas are now looking at their structures following the G4 appointments and we will keep members updated as these programmes progress

If members have any questions or issues relating to this then please contact your Unite Risk rep, Paula Rodacan or your Unite Finance rep, Ellen Looby.

Equal Pay

Unite are scheduled to meet with Reward at the end of September to find out the outcome of the recent Equal Pay audit. We will share the highlights of the audit with you next month.

We also hope to be able to provide you with an update on some of the other outstanding items in this year's pay claim as we continue to discuss those with the business.
